Professional Summary

- ✓ **over 3 years** of IT experience as a **MEAN/MERN Stack Developer**.
- ✓ Extensive experience in **developing web & Mobile Apps** using **HTML5, CSS3, JavaScript, Angular9, JSON, Node.js, Sass, Bootstrap, Material, Angular flex-layout, Azure API Management**.
- ✓ Experience in working with **Angular 8** Modules, Services, Templates, Directives, Events, Services and Injectors to create a **SPA**.
- ✓ Hands on experience on the **Low Code Rapid Development** Platform like **Neutrinos Studio**.
- ✓ Experience in Developing User Interface (**UI**) Rich Web Applications, and Web Service Applications using Front End/User Interface (**UI**) Technologies like **JavaScript, Type Script, Angular9, Bootstrap, CSS Frameworks, Material Components & Apache Cordova**.
- ✓ Hands on experience in **azure DevOps and Graph API** for building **Teams extension**.
- ✓ Experience with various **IDE's** such as **Visual Studio Code, Sublime, Neutrinos** and **Notepad++**.
- ✓ Good Experience in Bug tracking tools like **Mantis** and **Azure Boards**.
- ✓ Experience with various **DevOps lifecycle tools** like **GitLab, Azure DevOps**.

Technical Skills

Web Technologies: HTML5, CSS3, JavaScript, Bootstrap, JSON, Angular9, TypeScript, Node.js, React, Java

IDEs: Visual Studio Code, Notepad++, Vim Editor, Sublime & Neutrinos Studio.

Debugging Tools: Chrome Developer

Operating Systems: Linux – Ubuntu, Windows

DevOps Lifecycle tools: GitLab, Azure, Graph API

Version Control: GIT

Database: MYSQL, Monogo DB

Frond End Tools: Figma, Adobe Photoshop

Academic Profile

- ✓ B. Tech-2017 passed out from KL University, Vaddeswaram with an aggregate of 70%.
- ✓ Intermediate-2013 passed out from Sri Chaitanya junior Kalasala, Machilipatnam with an aggregate of 96%.
- ✓ SSC-2011 passed out from Kendriya Vidyalaya, Machilipatnam with an CGPA of 9.2.

Certifications

- ✓ Responsive web design from freeCodeCamp
- ✓ Cutshort certified Angular 2+ developer.
- ✓ SQL basics from Hacker Rank

Experience Summary

MEAN/MERN Stack Developer

Inncrewin Technologies | Sep,2021 – present

RESTful API's, React, Angular 11, HTML5, CSS, Fluent UI, Ng-Bootstrap, JavaScript, TypeScript, Azure API Management, Azure sandbox, .NET-5, Azure Blob storage, signal-R.

MEAN Stack Developer

Prospecta Technologies | Oct,2018 – Sep,2021

RESTful API's, Angular8+, HTML5, CSS, Material, JavaScript, TypeScript, Azure API Management, Node.js, Express.js, MongoDB, Mongoose, python, Python Django, AWS.

Professional Experience

Project Name: In2fans brand forward platform.

Client: enVolo

Role: Angular Developer

Responsibilities:

- ✓ Worked on the payment gateway integration, chat Messages Module and tip Payment.
- ✓ Created custom chat module for loading of users, fetching of chat threads and designed input which can allow you to send multimedia message.
- ✓ Created custom components varying from modals to chat-pane, user-list and input pane
- ✓ Created custom modal class and consumed in the chat-module
- ✓ Used RxJS for passing of data from one component to the other component.
- ✓ Used event Emitters, input& output directives, service class injection for passing of data from parent to child components.
- ✓ Created shared components like payment modal and tip modals which can be used across the application
- ✓ Created file Storage service class which stores video and images in the blob storage and in return provide blob url.

Environment: Angular 11, TypeScript, JavaScript,Ng-bootstrap, Azure DevOps, Azure blob storage,HTML5, CSS3, Azure DevOps, Azure Active Directory.

Project Name: Voismart Teams Application

Client: Voismart, Italy

Role: MERN Developer

Responsibilities:

- ✓ Created Azure sandbox for creating mock organization.
- ✓ Created an azure tabs and bot application using the Teams Fx/cli and Teams Tools
- ✓ Developed VoIP application using sip.js and Voismart private library.
- ✓ Used Fluent UI library for creating the components & React 17.0.2 for creating the azure tabs.
- ✓ Created the testing environment and deployed in the organization level for testing.

Environment: React 17.0.2, TypeScript, JavaScript, Node JS, Fluent UI, Azure API Management, Azure Sandbox,HTML5, CSS3, Azure DevOps, Azure Active Directory.

Project Name: Ingredion Tapioca Plantation App

Client: Ingredion, Thailand

Role: MEAN Developer

Responsibilities:

- ✓ Used NPM for installing required node modules and other published Angular NPM modules.
- ✓ Created the project with new features of Angular11.
- ✓ Worked on some of the new features of Angular11 like CLI prompts, Angular material & component dev kit, Drag & drop, Virtual scrolling, Application performance improvements, No Ivy.
- ✓ Designed and developed the application using Angular11 framework along with HTML5, Sass, Type Script, JavaScript and Material.
- ✓ Used ngx-translator module for showing the content both in English and Thai
- ✓ Use azure-Msal module for authentication & login of users

Environment: Angular11, TypeScript, JavaScript, Node JS, Express JS, Material, Azure API Management, Azure Blob storage, HTML5, CSS3, GIT, Azure.

Project Name: IPA

Client: Ingredion, USA

Role: MEAN Developer

Responsibilities:

- ✓ Used **NPM** for installing required node modules and other published **Angular NPM modules**.
- ✓ Updated the application with new features of **Angular9**.
- ✓ Worked on some of the new features of **Angular9** like CLI prompts, Angular material & component dev kit, Drag & drop, Virtual scrolling, Application performance improvements, No Ivy.
- ✓ Designed and developed the application using **Angular9** framework along with **HTML5, Sass, Type Script, JavaScript and Material**.
- ✓ Moved existing **Angular controllers** and **services** to **Angular9 components** for more responsive and less dependency.
- ✓ Used **Azure DevOps** to keep track of **bugs** to reduce **downtime, increase productivity** and **Communication**.

Environment: Angular9, TypeScript, JavaScript, NPM, Express.js, Material, HTML5, CSS3, GIT, Azure API functions.

Project Name: Talent Referral

Client: Ingredion, USA

Role: MEAN Developer

Responsibilities:

- ✓ Developed mobile app for entering the talent Information using **Angular8, HTML5, Sass, Angular flex-layout, Material, Apache Cordova, Azure API's**.
- ✓ Designed Web Application for dashboards for the talent engagement using the **Angular8, HTML5, Sass, Angular flex-Layout, Material, Azure Dashboard**.
- ✓ Built **RESTful APIs** using the **Azure API Management**.
- ✓ Worked on **Cross-Browser compatibility** and fixed the **bugs** for several browsers.
- ✓ Enhanced and built reusable components across different modules using **Custom directives** and **Sass** classes.
- ✓ Created Responsive Designs (Mobile/Tablet/Desktop) using **Angular flex-layout & Material**.

Environment: Angular8, TypeScript, JavaScript, NPM, Express.js, Material, HTML5, CSS3, GIT, Azure functions.

Project Name: Health App

Client: Ingredion, USA

Role: MEAN Developer

Responsibilities:

- ✓ Worked along with the team in **remote** using **Agile development Methodology** & implementation of the project using low code rapid development platform **Neutrinos Studio**.
- ✓ Created and optimized Mobile App and webpages using the **Angular8, HTML5, Sass, TypeScript, JavaScript, Material & Angular flex-layout**.
- ✓ Implemented and designed **user interface** for mobile application used to self-assess the user well-being in wake of **global pandemic COVID-19**.
- ✓ Developed webpages for Dashboards for the Admin/supervisor using **Angular8, HTML5, Sass, TypeScript, Material & Angular flex-layout**.
- ✓ Worked on **Cross-Browser compatibility** and fixed the **bugs** for several browsers.
- ✓ Created Responsive Designs (Mobile/Tablet/Desktop) using **Angular flex-layout, Sass & Material**.
- ✓ Maintained 24/7 high volume availability using Azure DevOps.

Environment: Angular8, HTML5, CSS3, JavaScript, JSON, TypeScript, Node.js, Express.js

Project Name: ClouID

Client: ClouID, USA

Role: MEAN Developer

Responsibilities:

- ✓ Used NPM for installing required node modules and other published Angular NPM modules.
- ✓ Updated the application with new features of Angular11.
- ✓ Worked on some of the new features of Angular11 like CLI prompts, Angular material & component dev kit, Drag & drop, Virtual scrolling, Application performance improvements, No Ivy.
- ✓ Designed and developed the application using Angular11 framework along with HTML5, Sass, Type Script, JavaScript and Material.

Environment: Angular11, TypeScript, JavaScript, Node JS, Express JS, Material, HTML5, CSS3, GIT, Azure.

Project Name: Nitrogen Fueling App

Client: HPCL, India

Role: Angular UI Developer

Responsibilities:

- ✓ Designed and Implemented the Nitrogen Billing App by capturing the details of vehicle and generating bill.
- ✓ An analysis report is generated as per the billings generated at various time Intervals.
- ✓ Created and optimized webpages using the **Angular8, HTML5, Sass, TypeScript, JavaScript, Material & Angular flex-layout**.
- ✓ Implemented and designed **user interface** for mobile application.
- ✓ Designed Dashboards with **ngx-charts** for the visual representation of the generated reports.
- ✓ Designed **RESTful API's** and **Services** using **Node.js** with **Express.js** framework.

Environment: Angular8, HTML5, CSS3, TypeScript, JavaScript, Sass, Node.js, Mongoose, MongoDB, Java

Personal profile:

Fathers Name: D. N. Murthy

Nationality: India

Language proficiency: fluent in English, Telugu & Hindi

Date of Birth: 05-SEP-1995
